

At Belleville General  
on Saturday, May 21.  
The Grand Jury A. C.

Churchill's announcement that "Irish patriots" would be held under arrest was met with a burst of Frenchmen as something other than an invitation.

The French have insisted that the dispute with the Syrians is solely their own affair.

A dispatch from Beyrouth said the Syrians expected "assistance beyond advice from Britain and America."

Beaulieu Jallat, speaker of the Syrian parliament, charged that France was aiming at domination of Syria.

Raymond Hawdon, Greenwich, Conn., said that his wife, Mary Jane, widow of Charles Hawdon, died on the 13th of March, 1937, and that she would be held from the 14th to the 17th of June, J. J. Tanner, Harold, Calif., said that he had a son, Charles, who was a member of the Lebanese National Congress and had been called "acts of aggression" by the French in Lebanon. He said that the Lebanese would continue until Monday, Lebanon has ordered mobilization of its volunteer army and that the United States has ordered special taxes for national defense.

will take place from 10 to 12 Sunday afternoon at St. John's Anglican Rectory, for service of the dead. Inquiries may be made at the St. John's Cemetery, Rodin.

Funeral services for the late Mrs. John W. Johnson, born May 31st, 1871, will take place from 10 to 12 Sunday at the St. John's Anglican Rectory, at 2 o'clock to 4 p.m.

A full scale battle seems to be under way in Damascus, in French-occupied Syria. Fighting is continuing, according to reports and the British cabinet is holding an emergency meeting on the military situation in the battle-front Syrian capital, where a serious loss of life and property is being reported. ## THESE ARE THE NEW FREEDOMS.

These are the freedoms the CCF would add to our present freedom to vote. The CCF urges every Canadian to use his ONE FREEDOM to GAIN all the others.

## MORE FREEDOM

by giving every man and woman JOBS SECURITY. This means that the CCF will make sure of jobs for all by keeping up production in peacetime as we built up production in wartime; converting war plants to peacetime use, building thousands of new homes every year, and doing and making useful things for better living.

## MORE FREEDOM

by giving to every farmer FARM SECURITY. This means that the CCF will help the farmer to maintain his farm by Marketing Boards, fertilizer, oil, and household needs, by more support to co-operatives, and other measures the farmers themselves want.

## MORE FREEDOM

by giving every family HOME SECURITY. This means that the CCF will enrich our living by providing good homes for all at costs we can easily afford, better educational opportunities, better administration of pensions and mothers' allowances, pressing forward to pensions at 60.

## MORE FREEDOM

by giving every citizen HEALTH SECURITY. This means that the CCF will provide province-wide (and then nation-wide) complete health services by providing fully-equipped health centres and hospitals everywhere they are needed, travelling clinics for rural areas, and free treatment for children and old-age pensioners; and will train personnel to give such services to everyone.

## MORE FREEDOM

by giving to every citizen FULL EMPLOYMENT in a FREE SOCIETY. This is the goal of the CCF. The CCF will plan surely and democratically for the good of all Canadians to provide FULL EMPLOYMENT—THE KEY TO ALL THE FREEDOMS!

## THE KEY TO FREEDOM

The CCF 5-Star Program Will Give Us MORE FREEDOM Than We Have Ever Had Before

## ONE FREEDOM

THE NEW FREEDOMS we have yet to get—freedom from unemployment, from want, from ALL the evils of depressions; loss of jobs, farms, homes, health, life's savings.

## THE CCF 5-STAR PROGRAM PLEDGES MORE FREEDOM BY GIVING—

★ JOB SECURITY ★ FARM SECURITY ★ HEALTH SECURITY ★ HOME SECURITY ★ CANADA'S SECURITY

## Problem of Heligoland

(By Kirk Hales in Milwaukee Journal)

A major problem of the peace will be a crumbling spot on the map.

No More Unpleasant Nervous, Wet, Tired

For the past few years, I have been suffering from a chronic condition of the stomach and intestines. I have tried many different treatments, but nothing has helped. I have been told that I have a "nervous stomach" and that I should take "nervine" or "nervine" or "nervine". I have tried these, but nothing has helped. out in front of the split and so portended a huge artificial barrier to which the whole German fleet would be drawn. When World War I started, one of the first things that happened in the Baltic was that the civilian population of Heligoland fled to the east. The people were permitted to take only a few jobs of hand baggage. They were dumped onto a transport ship and left to their own devices. Many of them never had been out of their native land before, and few had any idea how to get along in their new surroundings. The policy pursued provided them with bread in exchange for their own food. Many of them were glad to get out of their native land as soon as the war ended.

The first great naval battle of the First World War was fought off Heligoland in the water known as the "Battle of the Heligoland Bight." It was a tactical defeat for the British, but it was a moral victory for the British.

**He peered into the Unknown**

Gallies (1564-1642) invented an improved telescope, carried on research in magnetism and gravitation, discovered the principle of the pendulum. Contrary to previous teaching, he maintained that bodies of different weights fall with the same velocity. When challenged to prove this theory, he dropped a iron-pound shot and a one-pound shot from the top of the Leaning Tower of Pisa. To the amazement of the University students and faculty gathered to see the experiment, both weights reached the ground at the same time.

IN our own day, as in Gallies's time, research has opened the door to discoveries which have had far-reaching results.

In 1921, sales of Canadian Nickel were discouraging. Then the Nickel industry intensified its research and development. Year after year new ways were sought in which industry could use Nickel to make better products.

Sales of Canadian Nickel began to increase. They doubled . . . and trebled. Mines were enlarged. New plants were built. More men were employed. Great benefits came to Canada.

In the years after the war, Nickel research laboratories will push on their search for new uses for Nickel.

The information collected by International Nickel through years of metal research is available at all times to Canadian engineers, designers and metallurgists who need better materials for better products.

Thus will science and industry, working together, build a wider use of Canadian Nickel so that still more benefits will come to Canada.

## Two Missionaries Going to India Heard at Service

The average congregation in a Victoria Avenue Baptist church on Monday had the rare privilege of hearing two young men who will be going as missionaries to India. Recently graduated from Victoria Avenue Baptist high school, R.D. Brown, Rev. Waleo Peters and Rev. Waleo Peters, who will be going to India, were heard at a number of churches in the Oregon-Columbia conference. The officers of the conference, to assist Brown, gave the opportunity of hearing missionaries with them.

Both goals for a few minutes about their call to missionary service. They said they were not completely, having his remarks Mr. Nicholson made of the call to the service, a missionary must be prepared to leave his family and friends to go to a land of heat, dust and poverty. The speaker was followed by Waleo Peters, who was followed by the boy to marry him. There were four hundred people known to the people of India. Mr. Nicholson said that the call to the service is a matter of the heart. He said that the call to the service is a matter of the heart. ## Women's Division Of Selective Service Continues Operation

Although varied National Selective Service regulations now allow women to look for jobs on their own without first getting permits, the women's division of the Selective Service continues its operation according to R. H. Rose, manager of the local office.

The local branch will continue as an employment office and will also "red tape" jobs and also ready to help any women to find a suitable position.

According to Mr. Rose the service will save much personal pounding on the part of the girl or woman who may be called to a job. Instead of searching from office to office she can go to the selective service at the city hall and have a trained worker explain her situation. "We shall continue to know all the women who in the city become unemployed and are still required to let their orders with us. It will save time, energy and know-how if their call comes to the employment office, when they wish to

San Francisco, June 4.—(AP)—Life in Tokyo, a city which previously was reported "scorched to the ground," today has returned to "normalcy," the Tokyo radio said.

A broadcast heard by the Federal Communications Commission, however, gave a novel interpretation of normal conditions by adding that the "popular password" in the once great capital city is "living in my little underground shack," and that the former streets "are now rapidly turning into small vegetable patches."

Public utilities — gas, water, transportation and electricity — which were seriously disrupted by the two Superfortress fire raids last month, again are "functioning as usual," Tokyo claimed.

A little different picture was given by another broadcast recorded by the F.O.C. which said community kitchens in the Japanese capital were being used to feed the homeless and refugees. The aid of the air raid shelters.

Industrial Kobe and Osaka were said to be making "rapid" progress in rebuilding their fire-bombed factories.

The George Cross was established by the King in 1940 as "a new mark of honor for men and women in all walks of life." It recognizes heroic acts performed by civilians as well as members of the armed forces. It is awarded to the "Victoria Cross" of the British Empire. It is given for acts of civilian bravery. It is also given to members of the forces for heroic actions for which purely military honors are not normally granted. The ribbon is red with five narrow stripes of blue. The British Empire Medal may be awarded members of the services. The rank of warrant officers for gallant and distinguished service not in action, or for exceptional valuable and meritorious service.

## Says Jap Cities Will Be Rebuilt Underground

Osaka, June 5 — (AP) — Anticipating greater B-29 destruction of Japanese cities, the Tokyo government today ordered the city's underground agency today as the great port city of Kobe smoldered from yesterday's fire-bombing.

He added, however, that most cities meeting with Gen. Eisenhower's representatives in Germany last month, the repatriation of Soviet prisoners would be speeded up considerably.

## Life in Berlin Slowly Returning

By JOSEPH W. CHAGOS, Jr.  
Disturbed by The Canadian Press

BERLIN, June 5 (AP) — Life is returning to a normal tempo in the German capital, but the city is still a shadow of its former self.

Domes! agency broadcasts announced the creation of the "disturbance zone," which was said to have been "war-ravaged areas." The task will be to rebuild wrecked cities under the leadership of the military. In incendiary raids, aviators speeded targets areas, and fed the hundreds of thousands of bombs left behind by B-29 attacks.

The immediate concerns of the division were said to include Japan principally in Tokyo, Yokohama, Osaka and Kobe "where risks are high because of the large numbers of people who live there."

"The Japanese government has been completely destroyed," the statement said. "The new city will never be again, unless we build it up again."

The report also stated that the war had ended in Japan's "total annihilation."

When this correspondent visited the ruins of Hiroshima, he found the total capitulation of Germany was formally realized, the city was being rebuilt, and the atomic bomb existed. It was one vast unbearable shambles.

It is hard to imagine how the city is completely dead. The entire government and business area has been leveled. The city will never be again, unless we build it up again, unless we build it up again.

### 3rd Division March-Past Marks 1st D-Day Anniversary

Trenton, N.J., June 6 — (UPI Cable) — Commemorating the first anniversary of D-Day, the 3rd Canadian Infantry Division today held a ceremonial march-past through the streets of Trenton.

Lt. Col. H. R. Keeler of Montreal led his whole division past Gen. Chmer, 1st Canadian Army Commander, who was standing beside him.

The march-past was a salute to the soldiers who were still alive, as they slowly returned to their native land after having seen action from the battle front, to one another at between Trepow and Longue Pointe, a few streets away from here again.

A number of box trucks had been put back into operation after being used as covered ambulances, mountains of rubble and debris that turned them into an impassable barrier along the slope of Berlin.

## British Press Comments On Ontario Election

BY PRESS BACHMANN  
 Staff Writer, The Canadian Press  
 London, June 8. — (CP) Canada's three large British newspapers, the *Times*, *Financial Times* and *Observer*, have commented on the results of the Ontario election, June 4.

The *Times* and *Financial Times* have both said that the election was a political statement which has been made by the Ontario government, and that the results are a reflection of the mood of the province.

The *Observer*, which has been the most critical of the Ontario government since 1948, and added that the party which suffered the greatest defeat was the C.P.P.

"The fact that it is G.D. C.P.'s row has been more or less a gain, after falling last year in Quebec, cannot be denied," it said.

French, American, Russian and British officials met in Ottawa last week concerning the organization of the Allied Control Council and the future of Germany.

Richard H. Law, speaking for the American side, said that the Allies must be prepared to make decisions that although Allied military missions arrived in Vienna last week, they will not be able to get on with their work until it is possible to set up a permanent Allied Control Council.

Expressing dissent in Germany for a big Thomsen meeting in London, Leharbte von Thomsen said (Rath was von Thomsen's name before he became a member of the German Reichstag) that the decision of military operations was not a decision of the German people. He said the Prime Minister, at any rate, there is no chance of the meeting being held in Germany.

Western Allied Troops Enter Berlin for First Time

By J. A. M. COOK

Berlin, June 5 (Delayed)—(CP Column)—The Soviet and Western troops broke through and penetrating under hot fighting tonight around a city which had been the scene of the fiercest fighting in the year since the Nazis took power.

The city was the scene of a dramatic character: that inaugurated joint military control of East-West Germany.

It was a start, he said, made in the name of peace and the end of the struggle for power and the peace of peace—its beginning.

berlin there was a more serious case with a woman, 39 years old, nearly 20,000,000 Allied soldiers, flanked by their chiefs of state, and in the presence of their foreign officials, and in his belated note acknowledged how treacherous Russian agents were.

For three hours they gathered in conference, changing one word in the Russian text, their joint declaration and then during the half hour when the Russian envoys went out, the Russian word was spoken above a whisper.

### Let Every Vote be Cast

On Monday when the voters of the Dominion go to the polls to elect the members of the House of Commons, it is hoped and confidently expected that the polling will be large and probably the heaviest.

In war time the people have been doing great deeds of thinking, as war imposed great responsibilities and one of the people's responsibilities is to vote when the opportunity and duty calls the electors to exercise their franchise.

A vote nearly complete is the ideal of democracy. It is the fullest expression of the people's wishes and they are not yet known. There was a horrible murder in Belgium, Mr. Clayton said, that the ship had been sunk by Allied air attack.

### Four Million Murdered

(CAN. PRESS)

On the basis of interrogation and census of 2,810 prisoners of Oewicem camp who were saved by the Red Army, a study of German documents in the hands of the Russians, and crematorium and gas chambers blown up by the Germans as they retreated; bodies and crematoriums of the camp were not yet known. There was a horrible murder in Belgium, Mr. Clayton said, that the ship had been sunk by Allied air attack.

### Norway's King Home Again

Norway's King Haakon has returned to Norway and been welcomed by the Crown Prince Olaf, the Government of the Kingdom of Norway, and the people of Norway. For five years he has been in exile in Britain where he established his emporary government after his escape from the clutches of the barbarians of Adolf Hitler in April, 1940.

The King, who knows the heroism with which King Haakon fought against the German invaders of his kingdom. It recalls the spirit with which he rallied the people and the army with the armed forces of the Norwegians until resistance was impossible. The Germans maintained control for him and endeavored to win him with plans. Only with the collapse of resistance and after a time spent in tramping through the forests with his men, he was able to leave and carry on the fight from Britain.

Five years to the day when he left Norway on a British ship, he returned on a British ship.

Throughout the struggle against Hitler, the King of Norway and his people never doubted that in time the victory would have been Norway's world come. Norway's King carried on the government from Britain and in fighting Norwegians and the Norwegians ended the occupation, restoring the King's home and his people to their own power with all its might. The Norwegians ended the occupation, restoring the King's home and his people to their own power with all its might.

With the surrender of Germany, the German occupation over and Norway began to breath freely.

With the surrender of the Norwegians and his son Prince Olaf have been useless in their service to the people of Norway. Again King Olaf has returned to his people and to the days of reconstruction. The vigor and courage of this nation during the war will stand this people in good stead during peace for the same spirit will be carried out in the post-war undertakings.

### Oaska Feels Raids

Oaska, great Japanese industrial city, has been bombed by the Superfortresses and the Japanese air force in a series of air bombardments. They are destroying something of air power in its destruction. The power of the United States air force proved effective in rendering industrial German cities apart and breaking the transportation system of Germany. What the air fleets did to the great industrial centres of Germany is to be seen in the pictures where the towns against the heart of Germany struck with knock-out effect.

Japan is now experiencing something of this same thing and Allied air might will undoubtedly continue to grow from more to more. The destruction of the industrial mechanism of Japan is at last paralyzed.

### Madonna

(Associated Press)

A strange story is brought back from Bruges by the best known of all London correspondents, Mr. T. T. Clayton, the padre of T. O. H. When there he met the Anglican chaplain to the British legation, Mr. H. J. Hayward, who told him how the great Michelangelo Madonna was taken by the Germans from the Church of Notre Dame of Bruges. The statue is one of the world's major art treasures.

Mr. Hayward's story is that the sacristan of the church told him that one night the statue was taken out of the church and brought to the church by German officers, who took the statue and entered it with a low trolley car on which, after much work, the soldiers set the Michelangelo statue and took it to one of a string of Red Cross wagons that were drawn up outside. The sacristan and a priest who had hurried to the place protested and pleaded, but the statue was taken and then the plinth, and then a number of paintings cut from their panels.

All the horrified civilian could learn from the looters was that these treasures were to be taken to Zebruggue and shipped to Germany, where it is hoped they are not yet known. There was a horrible murder in Belgium, Mr. Clayton said, that the ship had been sunk by Allied air attack.

### Two German Prisoners

(CAN. PRESS)

On the basis of interrogation and census of 2,810 prisoners of Oewicem camp who were saved by the Red Army, a study of German documents in the hands of the Russians, and crematorium and gas chambers blown up by the Germans as they retreated; bodies and crematoriums of the camp were not yet known. There was a horrible murder in Belgium, Mr. Clayton said, that the ship had been sunk by Allied air attack.

### Value of Preparedness

(Montreal Gazette)

Perhaps no more striking proof of the importance of preparedness can be found than the German decision not to use gas either on the active war fronts or in the planned war on the civilian populations of Allied countries. This decision was not based on an appreciation of the value of humanity, or the everyday forbearance of a kindly people. It was based purely, and on a degree of knowledge that the use of gas of the poison gas would bring immediate retaliation on a gigantic scale, and that the German people would be the utter destruction of the German people.

By strength only were the Allied peoples saved from poison gas. By strength only will they be saved from the further and more dreadful scourge of another war.

This is a truth, as fundamental in its concept as it is terrible in its thought, which the people of the world and indeed all the civilized people, must remember.

### JUST FOLKS

(Copyright, 1945, Edgar A. Cross)

MAY 8, 1945

Oh, precious freedom bought with pain  
And blood and great and binding tears  
World-wide the church bells ring again  
And peace is promised for the years.

The tyrant hordes the field have fled;  
Down come the banners they unfurled  
The transportation system of Germany.  
And dead his dream to rule the world.

One more grim task to do, and then  
To cleaner duties men can turn,  
To God and brotherhood again  
And hence hearth fires blaze and burn.

## Retailers Report Downward Trend In Business Sales

A survey of a cross section of the city's business life revealed today that trade volume and dropped by a considerably heavy percentage from that of a year ago.

Consistent testimony of unseasonable weather was given as one of the contributing factors while industrial layoffs were given as another reason for the slump in consumer business.

Volume held approximately at last year's levels up to the end of March but with the advent of April and subsequent continuous bad weather, it developed a downward trend that has changed but little since that date. It was noted.

It was learned, however, that during the past ten days there has been considerable activity in canned goods trade. One suggestion was to the effect that the public is becoming a little worried about seasonal crops and is buying canned foods for "future reference."

Sales quotas in the clothing busi-

ness especially men's apparel are being filled weakly with no effort, but retailers are still quoted as from time to time weeks to the sale of previous. Disappointed retailers now get a priority on delivery but can get their orders filled in roughly two weeks.

# VOTE GEORGE STOKES FOR SERVICE in Hastings South on MONDAY, JUNE 11th

Ontario Has Shown The Way — The Swing Will  
Be to JOHN BRACKEN as Canada's Next  
Prime Minister on Monday Next

GEORGE H. STOKES  
Hastings South  
June 11th.

JOHN BRACKEN

## Elect A Progressive Conservative Gov't with New Progressive Policies Regarding:

**Co-operation with All Provinces**  
Respecting their rights. Governing Canada as a United Nation, not by sections. One Policy for all. Real unity and co-operation.

### Protect Farm Prices

Safeguard producers from low prices by setting up export board with power to determine and pay the difference between a fair Canadian price and the actual world price.

### Rehabilitation

Rehabilitation for service personnel, with adequate compensation for service rendered.

### Security

Financial assistance for education, hospitalization and health, old age pensions and other social services.

### Lower Personal Income Tax

Greater exemptions for married and single taxpayers. Substantially reducing present taxes, particularly in lower income tax brackets.

### Scientific Revision of

### Canada's Tax Structure

Everything is taxed sky-high. Let taxation be simplified. Too high taxation discourages enterprise and industry.

## King's Ship Sinking

King's ship of state is sinking and most of her crew have deserted before she takes her final plunge.

These cabinet members scrambled off while the scrambling was good: Powers, Carleton, Laffache, Michoud, MacDonald, McLarty, Crow and Mulock.

Dangers of private members of King's last parliament have refused to run in this election because they saw the handwriting is on the wall.

All the sugar-coated promises and propaganda dished out by the Liberal party now will rot, save Mackenzie King from the defeat that the Canadian people have in store for him on June 11th.

The Canadian people know that the issue is State Socialism or John Bracken and the Progressive Conservative party after June 11th. Every test poll made across Canada indicates that Bracken, a trusted and proven leader, will form the next Government of Canada.

## Vote for Fair Play To Our Fighting Men

Mr. Bracken promises that he will have Canada do her fair share in the war against Japan

## BUT

That none of the Canadian armed forces who have already served in an active theatre of war need fight Japan, except AS THEY CHOOSE to volunteer WITHOUT CORRECTION of any kind whatsoever. And that he will send to the Pacific theatre of war physically fit N.R.M.A. troops, thereby giving practical application to his policy of equality of service and sacrifice.

## Abolish Radio License Fee

The Progressive Conservative Party will, at the first session of Parliament after the election, abolish the fee payable for radio licenses, which is regarded as unnecessary and unwarranted.

## Let Us Have Government By the People — For the People

PEOPLE ARE TIRED OF ORDER-IN-COUNCIL GOVERNMENT... AFTER 5000 ORDERS-IN-COUNCIL, THE KING GOVERNMENT HAS THE ORDER-IN-COUNCIL MIND—A DISEASE HARD TO CURE.

The Progressive Conservative Policy Means Government of the Highest Order—Along Accepted Lines. Canada Needs a NEW LEADER. For a New Era—Elect BRACKEN.

# REVERSE FORM By Jack Sord

By Jack Sord

It is a fact that the reverse form is a new development in the world of business. It is a form that is designed to be filled out by the customer, rather than the salesperson. This form is used to collect information about the customer's needs and preferences, and it is used to tailor the salesperson's presentation to the customer's specific needs. The reverse form is a valuable tool for salespeople, as it allows them to gather information about their customers in a more efficient and effective manner.

Two Elections  
For North Ireland  
In Three Weeks

(Continued From Correspondent's Column)

On the 19th, a Japanese ship, the "Yoshino," arrived in London. This is the first Japanese ship to call at the British port since the outbreak of the war. The ship was carrying a cargo of Japanese goods, and the crew consisted of 100 Japanese sailors and 10 British crew members. The ship was met by a British customs officer, and the cargo was inspected. The ship was then allowed to proceed to its destination.

The ship was met by a British customs officer, and the cargo was inspected. The ship was then allowed to proceed to its destination.

They dropped high explosive only.

Shibui and Maruo were the small plane which crashed. They are about 30 miles east and 30 miles south of Nagoya. Nagoya is about 30 miles east, on Honshu's east coast 80 miles southwest of Tokyo.

Nagoya the target was a manufacturing aircraft engine parts. A large plant of the Aichi Aircraft Co. is located there.

At discussion the standing of the parties was: Unions 26, Nationalist 4, Independent Unions 3, Labor 3, Commonwealth Labor 1, and two Communist Unions. The Nationalist needs recruits.

The Unions party has been so power continuously since 1921 and its supporters express confidence that they will continue to hold all their present seats, or at least lose only a few.

## Japs Suffering Reverses in War Theatres of War

### Four Consecutive Days Of Bombing Carried Out

Montreal, June 11 (CP)—While the Japanese continued today from its worst weather of the war—four consecutive days of rain and higher winds—the Japanese were suffering reverses in all their theatres.

Japanese-held British Borneo was today invaded by Australian troops, the American 1st, 2nd and 3rd Divisions, the United States 17th Air Division, and the 1st, 2nd and 3rd Divisions of the United States Army. The Japanese were suffering reverses in all their theatres.

Thursday, Friday, Saturday and Sunday, Japanese planes struck again and again, bombing British and American forces, and the Japanese were suffering reverses in all their theatres.

Results were reported poor, although photographs were not yet available. The Japanese were suffering reverses in all their theatres.

## CANADIANS FLOCK TO POLLS ACROSS COUNTRY TODAY

Election Campaign Has Been Fought Generally Along Peaceable Lines

Ottawa, June 11 (CP)—The Dominion vote today to elect a new parliament, to return to power or choose a successor for the Liberal party which has held office for six terms of government.

Across the country polls opened at 10 a.m. and close at 6 p.m. local time, ending an election campaign fought largely on peaceable lines even though the election is at war with Japan.

The main battle has been between Canada's two traditional parties—the Progressive Conservatives and the Liberal party, which has held office for six terms of government.

## Twelfth Army

The fact that the liberation of Rangoon and most of Burma does not bring the war to its end is emphasized by the formation of the new Twelfth Army to fight behind the Fourteenth Army. Thus the victory of the Fourteenth Army has led not to a reduction of the forces in Burma but to their increase for the task ahead. The liberation of Rangoon is not an end in itself; its splendid port is a springboard for the liberation of even greater areas than those already taken by the U.S.A.C.

The Twelfth is an entirely British Empire force, made up of units from Europe, the Middle East, and India. Its commander, Lieutenant General Sir Montagu Stopford, and the commander of the Fourteenth Army, Lieutenant General Sir William J. Slim, both serve under Lieut. General Sir Oliver Leese as parts of the British Army Group. The most significant for future operations is the news that large numbers of landing craft from Europe are being sent to the Far East.

The withdrawal of the U.S. Mers Force and the U.S.A.A.F. units to fight on other fronts against the Japanese in the Pacific leaves Canada an entirely British Empire theatre except for the Chinese forces.

## Lidice

Lidice will long be remembered. Three years ago yesterday there was a deed which Germany can never live down for the brutality and savagery of the destruction of that settlement in Czechoslovakia. Two thousand inhabitants killed that place home. The Lidice massacre was a deed which Germany can never live down for the brutality and savagery of the destruction of that settlement in Czechoslovakia. Two thousand inhabitants killed that place home.

Every woman in the village was taken to a concentration camp with all the horrors that entailed, while the men were being trained in everything that was Nazi, — one of the greatest sins ever perpetrated against mankind.

The enemy ordered every building levelled and then the name of the settlement was removed from the records of the district.

Yet in three years all that Hun aggression and terrorism tried to do has been failed, for right has triumphed and many of the chief offenders among the Nazi gang have gone by suicide, others are to be tried for their crimes while the deeds of horror too terrible to contemplate.

Lidice was not and is not forgotten. From ruins of the Lidice church has been built a shrine to the dead and there the centre of what was Lidice.

It is good as this Lidice shrine is being forgotten. It will ever be a commentary on the depth to which the enemy sowed the seeds of his own destruction.

The Lidice name now is known to many millions and has a special significance, for it is the name of a village destroyed by the Germans.

How horrible and how beautiful German Nazism was with its calculated lies and its support of every form of atrocity and crime that was known or could be invented by the sinister minds of the Nazis is shown by the deed done in that village.

The German officer who carried out the mass murder and the imprisonment of the innocent villagers has been captured and will face trial before a tribunal for his crime.

In justice to the victims of the atrocities their deaths should never be forgotten, for such murders are symbols of evil which can come through heartless and brutal men, led by the spirit of lust for power and greed, and practising the most savage and sadistic crimes the world has ever heard of.

The world sees in this village the folk who died under such awful conditions that humanity at large escaped by the defeat of that monstrous system of Nazism. Humanity must never allow to be forgotten also the names of those whose courage and devotion in all Allied lands to the cause of humanity brought the defeat of this manifestation of evil, German Nazism and its persecution.

The United Nations will take the strong measures to see that no future barbaric gang shall ever be allowed to play a part in the world by warping upon humanity.

Back to 1937 Boundaries

The lands which Hitler seized and which he has now liberated are now called the boundaries of Germany. Austria was

of Nazi Germany and Hitler rode in his own atmosphere of triumph as he crushed the of his own native land. Austria is not now in the Germany that Hitler left when he disappeared from the knowledge as the Reich was crashing in the dust. Now is Czechoslovakia within German boundaries. There Hitler's cruel hand was felt and then their lives were taken. He was the aggressor because openly his terrorism leading up to the outbreak of the war on Poland. The borders of Germany have been pushed back to 1937. This decisive step was taken by the Allied Powers now in military control and government in occupation.

Germany may also lose other territory for she has a long history of aggression against her neighbours. The people of Denmark being one of those who have suffered. Germany seized the two duchies of Schleswig and Holstein in the Holstein War in the sixties of the nineteenth century. There has been talk of the Netherlands claiming a part of Western Germany in compensation for Dutch agricultural land raised by the Germans in their flooding of the country with sea water. There have been mentions of East Prussia also losing territory.

Germany is now seeing a long list in the news of the restoration of its borders. It though he thought his militaristic empire could not possibly lose. But Allied military might has been too strong and at the same time demonstrate the failure and justice of Allied ideals.

## Supper Minelayers

The Royal Navy's fast minelayers are the fastest ships in the world. According to Rear Admiral R. K. Dickson, D.S.O., Chief of Naval Review for a time captain of the minelayer H.M.S. "Munich", the fastest ship in the world.

The information available about them is that they are 2,650 tons, with an armament of 4-inch guns, and a speed of at least 40 knots — a speed equal to that of a motor torpedo boat. In appearance they resemble a streamlined submarine and are equipped to carry a large number of mines.

The class consisted of four, H.M. Ships "Munich," "Abdell," "Latona," and "Weisbaden," and were in service by 1940. Facts about these ships were withheld from the navy. Their speed seemed unbelievable and it was not until nearly two years had passed that anything definite was known about them.

## Britain Negotiated With Vichy Govt. In 1940

### Churchill Asserts 'Vichy Too Much Under German Duress'

London, June 12.—(CP)—Prime Minister Churchill disclosed today that Britain was in secret negotiations with the French Vichy government in 1940, but asserted "Vichy was too much under German duress" to be able to give concrete answers. He said the French fleet would not be surrendered to the Germans.

Mr. Churchill's disclosure was made in the House of Commons, in answer to a question by Mr. Herbert Morrison, who was inquiring about a secret treaty with Britain during the German occupation of France.

Denying he wanted to "correct any misunderstanding which might have been caused by very inaccurate reports which have been published on this subject," Mr. Churchill said: "After the withdrawal of the French from the continent in 1940, the British government sought to establish contact with the French government in Vichy through the French ambassador in London and through the French ambassador in London."

He said a series of messages were exchanged with the Vichy government during the summer of 1940, through British and French representatives. "It is a matter of fact," he said.

Change Many Ridings

By The Canadian Press  
Prime Minister Mackenzie King led his Liberal government back to office today for the third straight victory in 10 years but the overwhelming Liberal preponderance was shattered by a heavy majority on the civilian-vote side and the key to the entire election appeared to be the service-men's vote.

In more than 60 seats where election of Conservatives was indicated on the civilian vote, there was a margin of only seven per cent or less over the Liberal opposition.

Included in this category were 16 Liberal and 16 Conservative ridings and eight C.P. seats. The service vote was expected to swing the balance of the election by June 15.

A former Progressive Conservative opposition leader, led by John Bracken, secured 117 seats in the House of Commons, more than 50 per cent stronger than the Conservatives in the previous election.

# Germans Mined Newfoundland Waters Late in '43

## Promptly Swept Up: Only Two Merchant Ships Lost

The following story of the sweeping of German mines from Newfoundland waters was written late in 1943 but was withheld by the authorities for security reasons. It now has been removed from publication with the official navy announcement of the discovery of the minefield by Canadian and British ships.

(Written for The Canadian Press by John LaFrance)

HALIFAX, June 13 (CP)—Ducky little escort craft of the Royal Canadian Navy, guided a convoy through the first German minefield ever laid outside the English Channel. The mines were promptly swept up by Canadian and British ships with the use of only two merchant vessels.

That was the fate of 1943, just after German mining submarines had mined the minefield. A navy announcement from Ottawa disclosed today, were generally swept up by Canadian and British ships with the use of only two merchant vessels.

### Japanese Continue Fierce Last-Stand Resistance on All Parts of Okinawa

Manila, June 13 (CP)—The Australian 8th Division continued its resistance as it pushed steadily in the Borneo campaign, while the Japanese Tuesday night left the rich rice fields of Okinawa.

In the Philippines, fighting was still intense in Iloilo near Davao city, and it was announced today that Marine drive bombers smashed Japanese resistance and the U.S. 8th Air Force, after the war, reported that the camp was empty.

# Inspector Macklem Urges Adoption Of Township School Area System In Southern Sections of Hastings

Ching the success of the township school area system in the township of Hastings, Inspector Macklem urged the adoption of the township school area system in the southern sections of Hastings.

Remarking, he told the Hastings County Council, the system was a success. In addition to the above result the municipality in which the school area is located, has been able to save money on its assessment for school purposes.

He said that the township school area system, which has been successful in Hastings, has been successful in other townships as well. He said that the township school area system, which has been successful in Hastings, has been successful in other townships as well.

# Council Votes Grants of \$5,000 For Convalescent Hospital in City and Bancroft Hospital

Also Approves a Grant of \$500 for Community Hall at Bancroft

Supporters of motions for grants of \$5,000 each to the Belleville Church and Convalescent Hospital and the Bancroft Red Cross Hospital, approved the motion at today's meeting of the Hastings County Council, held at the Hastings County Hotel, following the session on Thursday morning and launched a financial campaign to help the convalescent hospital.

The resolution granting of \$5,000 for each of the institutions and get them. Council was today informed in both cases in granting the requests a sharp contrast to the same margin received in the whole on Wages and Money, noting that the proposed grant of \$5,000 for the hospital was a "very good" one.

"I heartily endorse this move," said "and I feel it is all the more to the citizens of Belleville."

# Lt.-Col. Merritt, V.C., Welcomed as Member of Army and Navy Veterans

Given Personal Thanks for Honors Conferred While Prisoner of War

"Let's get the benefits of the government bonus and into the hands of the boys coming home," was the first words of the Lt.-Col. Merritt, V.C., as he appeared for the first time as a member and comrade at a regular meeting of the Army and Navy Veterans in Canada, unit 201 held in Memorial Hall Thursday evening.

It was after being welcomed as member Col. Merritt spoke to the group in an impressive talk. "I wish to thank you for making me a life member of your organization, while I was in 'half holiday' days. I might say when my wife wrote me and told me of the illuminated address given her in this room reading me 'honorary member of your association' it was with pride I read the letter as I'm sure a citizen of Belleville is proud to have a man of his great ability to my wife and family."

Col. Merritt, V.C., as he appeared for the first time as a member and comrade at a regular meeting of the Army and Navy Veterans in Canada, unit 201 held in Memorial Hall Thursday evening.

Regina, June 13. (CP)—The imminent opening of the new season of horse racing has given notice to the old argument whether this old grey mare is or isn't as useful as she used to be, prairie travellers said today.

Formers are in agreement that the season and their current, the horse racing plants operated by a co-operative will be back in the morning some of the hundreds of thousands of surplus horses fattening on grass that could be used to better purpose.

But there is no agreement on the suggestion that with an abundance of horses after the war, prairie farmers might as well discard every horse they have.

The basic contention of the prairie element is that no one has invented a tractor that will live off the land. Belated that practical viewpoint is an accumulation of investment handed down from their own, to son, which finds its expression in the specifications of farmers to sell or sell for feed donors or others that have been supplanted by machinery.

Prof. J. P. Sackville, head of the University of Alberta, is being quoted by those who think that the horse and better maintain the population at a reasonable level. He goes so far as to say it shortage of farm horses will be a serious problem in the next few years, though he agrees there is a surplus of some 20,000 "non-productive" on the prairie which are of little value to the farm.

He said that farmers, in contrast to 1,000,000 animals of the so-called county 10,000 horses, many of them 10,000 horses from the West, need a special type of horse. The old type and breed, distribution to cities and this market was likely to continue.

Payment on the implement salesman at least an implement salesman in Saskatchewan recently was quoted by those who think that the horse and better maintain the population at a reasonable level.

## INCREASE IN GASOLINE RATION necessitates

## A REVISION IN CAR INSURANCE DISCOUNTS ALLOWED FOR WARTIME GASOLINE RESTRICTIONS

● In April, 1942, a substantial discount on existing car insurance rates was made effective due to restrictive wartime gasoline rationing, and following a further restriction in the gasoline ration a further discount was allowed on January 1, 1943.

At the time it was explained that the discounts were temporary and based on the continuance of wartime restrictions. These restrictions are now being relaxed.

The recent increase in the gasoline ration, with the inevitable increase in motor traffic now necessitates a revision of these discounts.

The changes are as follows:

# Federal Government To Be Requested To Allocate Family Allowances To Children's Aid, Not Foster Parents

A resolution, endorsed by the Hastings County Council will go forward to Ottawa shortly requesting the Federal Government to allocate Family Allowances to children's aid societies rather than to foster parents of children in need.

The Hastings County Council is of the opinion that the money should be paid to the children's aid societies rather than to foster parents, as the latter are not responsible for the maintenance of the children.

The Council has also decided that the money should be paid to the children's aid societies rather than to foster parents, as the latter are not responsible for the maintenance of the children.

# June Session Left County Council In "Grant" Daze: Record Number Of Requests for Money Dealt With

No Action Taken on Sick Children's Hospital Request for \$21,141.46.

The June session of the Hastings County Council was a busy one, with a record number of requests for money being dealt with. The Council was left in a "grant" daze, as it had to consider a large number of requests for money from various departments.

The Council was also asked to consider a request for \$21,141.46 for the construction of a sick children's hospital. The Council was unable to reach a decision on this request, as it was too large to be considered in one session.

The Council was also asked to consider a request for \$10,000 for the purchase of a new fire engine. The Council was able to approve this request, as it was within the budget.

A commission from a number of sources had been received by the Council, and it was found that they had been paid for a number of months. The Council was also asked to consider a request for \$10,000 for the purchase of a new fire engine. The Council was able to approve this request, as it was within the budget.

Looking into the future has scared you? No wonder. It's terrifying—no it isn't—so you see what is going to become of your family if you should happen to die.

But make it easy. You can readily change the future to your liking.

Each dollar your family will need—agree the total for yourself—can be provided "The London Life way" for about two cents a year. (A bit more if you are older than 30, less if you're younger). And the provision you make for your family can be used to take care of yourself, too, you live to retire.

A London Life representative can be of real help to you in "changing the future to your liking." You can get the benefit of his experience simply by letting him know you are interested.

**YOU CAN LIVE WITHOUT HYDRO but.**

Can you remember when making toast meant hanging bread over red hot coals ... and wash day meant hours of rubbing on a board? ... and oil lamps had to be cleaned and trimmed every day? Lots of people do—remember those days when it took hours of toil to perform tasks that can now be done electrically in a few minutes? It is a comparatively short period of time they have seen electricity grow from a small beginning into one of the most important and beneficial services in the world today.

To bring the electrical way of living to more and more people, Hydro has harnessed Ontario's great water power resources to provide this Province with an abundant supply of low-cost electricity enjoyed by all places elsewhere in the world. This is largely because citizens of Ontario co-operated to organize and support Hydro.

And have built it up through steady increased use of its service. Hydro is completely self-supporting. It operates on a service-at-cost basis, and the more it is used the less it costs.

Here is how Hydro rates have dropped with increased use:

Year	270 kilowatt-hours	1914	1924	1934
1914	960	1.96	1.56	1.16
1924	960	1.56	1.16	0.76
1934	960	1.16	0.76	0.36

As you plan your post-war home remodeling, be sure that your home is wired adequately in every room. Plan wisely now to take full advantage of this Hydro of yours.

## Only Volunteers Will Actually Serve In 60 Ship Fleet 23,500 Men Will Be Needed As Replacements, Reserves

Ottawa, June 21 (AP)—Mr. Winston Churchill announced today that 25,000 of a total of 70,000 men needed for marine service had volunteered, all returns had not been tabulated and some of the total requirement would be made up of non-volunteers.

It was assumed that some of the remaining 45,000 would be made up of volunteers now being called while the remainder would be selected from the pool of non-volunteers; however, only the volunteers would be sent to the 60-ship fleet, which will require a complete re-equipment.

An additional 23,500 men will be needed, predominantly reserves and administrative personnel and it is expected that some of the volunteers will be sent to the fleet, while others will be demobilized "as top grade" and sent to the reserves.

Mr. Churchill said that the 60-ship fleet would be made up of 18 to 20 years old men, and that the 23,500 men would be sent to the fleet as replacements, reserves and administrative personnel.

Belleville, Ontario, Friday, June 22, 1945

### Within Short Time Take Place at Head of Pacific Fleet

Capt. Harold Grant, Halifax, Senior Canadian Officer

Ottawa, June 22 (CP)—Royal Navy Ministry today announced that the new cruiser Ontario, which will be the head of Canada's Pacific fleet, is expected to arrive in the west coast later this year.

A naval press release which accompanied the announcement said that Capt. Harold Grant, of Halifax, will be in all probability be appointed as the senior Canadian officer of the Pacific fleet which will be Canada's contribution to the war against Japan.

Ottawa, second cruiser given to Canada Group instead of the United States Navy, has been transferred from British, his last duty was in the Pacific. Ontario, which will be the head of Canada's Pacific fleet, is expected to arrive in the west coast later this year.

This is very recent history know to all readers how the disguised line was unable to hold back the power of the aroused world of the United Nations and Allied forces to demolish German tyranny.

The undoing of Hitler's evil punks accordingly presented an ample field of influence and at work to destroy also the false teachings and ideals of Germany which have been fostered in this country.

It is necessary to remove forever the possibility of aggression in years to come.

Remember, Death, that it is a struggle fight — the newspaper and I

**Okunawa, Won**

Japanese depend on 'not save Okunawa' to the Nipponese. The campaign has been won by the Americans and is ended. It has been a long and arduous campaign by the enemy but the American forces have carried the day and borne the brunt of the war.

The cost has been heavy in blood and wounded and the other day the American forces, under the leadership of General Buckner, one of the most skillful and aggressive field commanders, let his men when they were expected to take the city.

**Hitler's Measure**

General Eisenhower stood up the measure of Adolf Hitler when he recently that even if it should be true that Hitler is alive, the punishment he has had to take is a fitting one for the man who has been fighting in the disguise and underground. The General was discussing with the Russians had said about having had grave doubts that Hitler is dead and added, "The Russians agreed with me that if Hitler is not dead he must be undergoing the worst possible punishment for a man who has exercised arrogance and arbitrary power over 250,000,000 persons who have been his subjects."

### Removal Nazi Vestiges

Hitler's dragon teeth defences are being blasted out of the German soil—they were once part of the fortified line which Hitler had built to preserve his gains by aggression from the Western Allies. The demolition of these defences is a necessary step in the process of removing concrete pillboxes, and blowing up German blockhouses and air raid shelters.

**THE HOSPITAL FOR SICK CHILDREN**

**\$6,000,000 Building Fund**

Seems of illness or disabled limbs ones must wait their turn for treatment at the Hospital for Sick Children. The present building, erected in 1892, was then quite adequate. Now, with 1,195 of its patients coming from outside Toronto, the beds are always occupied, with 200 children waiting.

All but twenty of the beds are in public wards. "No child's name is in a ward more space than he provides if it is to be served promptly—more wards, more rooms for staff and research workers, more extensive laboratory equipment for many years, generous citizens have been this famous hospital's mainstay. The present need is urgent. Above all, the money for the new 400-bed building with thoroughly modern facilities and equipment will come from public subscription. YOU are asked to help provide the rest.

# Horse Sense Bridge

LESSON NO. 712  
BY SAM GORDON  
The Kipper  
Horse sense you had when you play with King. Whenever he looks to your right, whenever his feet hit the ground, he knows he is always with you. In the wrong corner, he knows the doctor at a cave on a trap contract in the goal.

**Help Hospital for Sick Children**  
 The Hospital for Sick Children, Toronto, is seeking the public for \$6,000,000 to enable it to build a new institution. The present structure is outmoded, overcrowded and rapidly becoming obsolete.

Through the magic of the healing power, the loving care, and the efficiency and expertise of its staff, many hundreds of boys and girls have been redeemed from an environment of lifelong handicap. Many have been completely cured. Many are now on the road to a state of health that will enable them to become independent, useful citizens.

These youngsters, many of them crippled from birth, other victims of the dread infantile paralysis, and yet others suffering from a number of diseases peculiar to children, have the right to health and to happiness. And it is the more fortunate to see that they get these things.

Unfettered and unswerving, the Hospital for Sick Children has pursued the even tenor of its healing ways. No faintest of trumpe echoes from the hospihome were small boy or girl is sent home to his or her home, with the rosy glow of a brighter future before them.

The brilliant glare of publicity spotlight is not thrown on the simple story of the care and expert treatment that invariably lies behind the struggling battle of the child and dark mists of a life seriously handicapped, into the sunlight of a future of at least some personal health.

Many times the thanks to the Hospital are contained in the silent handshake of a father, a gleam of grateful happiness in the eyes of a mother.

But despite the excellent work being done by the Hospital, the numbers of patients in the hospital are increasing. To take care of these children, the hospital and its facilities in all phases must be expanded. More space is on the line. To take care of these children, the hospital and its facilities in all phases must be expanded. More space is on the line. To take care of these children, the hospital and its facilities in all phases must be expanded. More space is on the line.

It is expected that a committee will be formed here immediately to look after the contributions. There is a shock. It is understood the campaign closes at the end of this week—so no time should be lost.

Remember the crippled children. They deserve the chance to live a healthy useful life. You can help them reach this goal of a healthy contribution now. And make it a generous one.

**Sunday, a Summer's Day**  
 Sunday was one of those lovely summer days for which all the people have been waiting. It was warm but at the same time with a cool breeze. The sun shined brightly and the people would not have wanted it otherwise. It was such a change from the temporary weather the people have had to take.

It was a day that sent and attracted people from their homes. They were out in the park, they were out in the park, they were out in the park. They were out in the park, they were out in the park, they were out in the park.

**Carbon Black Shortage Said To Be Serious**  
 The present carbon black situation, regarded by leaders in the industry, is a serious one. It is a shortage that has been building up for some time. It is a shortage that has been building up for some time. It is a shortage that has been building up for some time.

**The Sadist Hunt**  
 It pays to have a research division in the Canadian army. It pays to have a research division in the Canadian army. It pays to have a research division in the Canadian army. It pays to have a research division in the Canadian army.

Revelation of the sadist mind in the Hun behind the infernal weapon came to the world in the writer's dispatch which the people all over the world read last Thursday. Richard Rowland, correspondent of Reuters, has been sent to the front. He has been sent to the front. He has been sent to the front.

Rowland listed other weapons, all showing the devilish nature of those who invented and used them as well as those who had anything to do with the distribution of them. That many must have been engaged in the distribution of these weapons is natural to believe and so it is that this vicious plot against childhood and other innocent victims had the sanction of the Hun overlord.

The infernal implements are a sample of the Hun's mind. They are a sample of the Hun's mind. They are a sample of the Hun's mind. They are a sample of the Hun's mind. They are a sample of the Hun's mind.

**JUST FOLKS**  
 By JOHN A. O'BRIEN  
 (Continued from page 1)

**THE VICTIM'S IDEA**  
 I can remember long ago my mother used to say to me, "Just folks."

Her sleeves were lap-of-mutton size. Her face and hands were all that showed when mother stepped outside. Her eyes were always looking at the ground. And father, who must hook her up, was always looking at the ground.

Below her skirts, when down she sat, a dainty little shoe. Enclosed in mother's other shoe was all she'd ever shoe.

I often wonder what she'd say could mother see today. The length of what were limbs to her, our modern girl display.

Trained in Victoria's right school of strict propriety, I'm sure she'd faint to look on sights which all surround me now. And so, perhaps, 'tis just as well she left us young and shapely legs the girls began to show.

# Horse Sense Bridge

LESSON NO. 115  
By LAM GORDON

The Kibitzer

In bridge you often get the little  
kibitzer who sits on the bench  
and yells at you from behind.  
You cannot hear him from where  
you are sitting.

## FOUR NEW FURIES

Britain has four new airplanes in the production line. They are faster than any warplanes yet produced. After years of development, which was speeded up by the collapse of Germany, the details of these superb planes—three of which are fighters and one a bomber—were the other day issued in London.

The first is the jet-propelled Vampire, with a speed of more than 500 m.p.h. in level flight. This single-engine fighter, designed by the makers of the Mosquito, represents the greatest advance in jet planes since the Allies captured Group Captain Whittle's jet engine.

There is also a twin-engine fighter, the Hornet, officially described as a "scout." But while the Mosquito consisted of two powerful Rolls Royce Merlin engines with fuselage and wings around them, the Hornet, with even less structure holding the Merlins together, becomes the fastest propeller-driven fighter in the world with a top speed of more than 470 m.p.h.

The Spitfire, an offspring of the Spitfire, is a single-seat fighter, with a top speed of more than 400 m.p.h. in level flight. It is a single-seat fighter, with a top speed of more than 400 m.p.h. in level flight.

The mighty new four-engine bomber is named the Lincoln. It is bigger, faster, and has a heavier bomb load than the Lancaster, can carry 11 tons "volcano" bombs, and has, in addition, greater speed and range.

No further details of the planes have yet been revealed.

## DARING SERVICES BY AIR

One of the most daring air services of the war operated between Leuchars, Scotland, and Stockholm, Sweden, from April until V-E Day. During that time civil aircraft of the British Overseas Airways Corporation, flying unarmed over 250 miles of heavily defended enemy territory on each occasion.

The necessity for taking such risks was that Sweden, being neutral, could not permit the entrance of armaments. Sweden was unable to supply the Allies with essential war equipment—including special types of steel, ball bearings, parts for Diesel engines, precision instruments, and even such things as food and clothing.

## Small Nations Show Readiness To Ratify Charter

Likely Will Come Into Effect Before the End of Present Year

By JOHN F. CROWLEY.

San Francisco, June 28 (AP)—A sufficient number of the United Nations may adopt the United Nations charter in time to bring it into effect before the end of 1945. This was the prospect shown today in a poll conducted at the third Security Conference by the Associated Press. Out of the first 30 nations to reply to a questionnaire, 26 predicted ratification by their home governments before the end of the year, none failed to say they would ratify, and 26 nations agreed to do so.

Assuming United States ratification, as indicated by Secretary of State, an Associated Press analysis in Washington, the Security Conference by delegates here was that a real likelihood of favorable vote by small nations would follow.

All of the major powers—Britain, the United States, Russia, France and China—plus 26 of the other 49 members of the United Nations, are expected to ratify the charter as soon as possible.

The United States, Britain and China, together with 18 small nations, are expected to ratify the charter as soon as possible. The ratifications already have been placed on the line as possible candidates before Jan. 1, 1946.

If Russia and France complete the big five group quickly the full force of the new world organization, almost certainly will come into effect this year.

China is ready now.

Realistic predictions range from a "five year" in the case of China to "the earliest possible date" in the case of the Philippines. In several instances, as in Britain, Norway, Belgium, Greece, the delegates said that forthcoming elections would govern the date of ratification, but even in those instances a five-year date hardly was given.

Against the unanimous prediction of final ratification, the comments of the various delegates formed a varying background. Asked whether they considered the San Francisco Conference a complete or partial success, most nations gave complete statements with "yes" or "no".

Before the conference, and the people was "as great a success as can be" and the "most important of international affairs," Turkey said it was "a great success" and the conference was a "victory" for the world.

France, Belgium, Greece, Portugal, Honduras, Paraguay, and the Dominican Republic also said they considered the conference a complete success.

## Churchill Says 'He Never Gets Angry at Politics'

Coverley, June 28 (AP)—Prime Minister Churchill, tired-looking but still sharp-tongued, continued his last-minute dictation today after taking a break and home with a small increase in the first day of his intensive campaign on behalf of the Conservative Party.

And by a police escort and howling and snoring from an open lorry, Mr. Churchill praised the United States, lauded upon friendly relations with Russia and strong terms at his political enemies. In numerous brief speeches yesterday, "I've heard much abuse against me with my microphone," he told Labor followers at Coventry who sought to drown him out with their party song, "Red Flag." Then, as they tried to lead down the amplifying system, Mr. Churchill said: "You look so angry. I never get angry at politics."

Police estimated that 2000 persons were crowded into the square of the bomb-damaged industrial town.

The United States stood by its side today, he declared, as it stood by them.

He added that he hoped the time would come when it would be difficult to "tell Americans from the British, unless they take special care to wear different trousers."

## Urge Full Session Of Legislature

Windsor, June 28 (CP)—The Canadian United Automobile Workers District Council, as announced today, at the end of sessions attended by delegates from 13 Canadian cities, that they had approved a resolution calling for a full session of the Ontario legislature to deal with all issues before it before it was dissolved to clear the way for the provincial election of June 4.

President Dewar announced yesterday at Toronto that the annual "special" session would begin July 18 to deal with the "resigning" of the Ontario legislature, such as the Ministry and the Labor Relations Act.

The council asked that the committee for Labor legislation be set up again and that necessary steps be taken to implement the National Administration be taken.

Another resolution urged that the Dominion Government guarantee a workman who returns to unemployment in industry an amount equal to what he would have received if he had not worked.

The delegates approved unanimous support of Lord and Chrysler workers seeking to obtain new and better bargaining agreements.

## Honor Roll Unveiled St. Andrew's, Ivanhoe

Trinidad.—A special service was held at St. Andrew's Presbyterian Church last Sunday, conducted by Rev. V. H. Walter the pastor. The guests were for the occasion of the Major Morris, Prince of Asturias, who delivered an outstanding and timely message.

At the conclusion of the service an honor roll was unveiled by Mr. Z. C. Ellis, a veteran of the World War. The beautiful list of names for this ceremony was presented by St. Andrew's Church by Mrs. Ross, Mother of Compassion.

Present in St. Andrew's was given by an important club at men's.

The minister and congregation were happy to have this service two of those honored on the roll. Chief Petty Officer John Wright of Toronto and Alvin Davidson of Fleming, who is home on Pacific leave.

# Stettinius Goes As U.S. Delegate To World Council

## President Signs New Cabinet Change Speculation by Latest Action

By ROBERT H. WAGNER  
Kansas City, Mo., June 28 (AP)—Overnightly surprised by his decision to replace Edward R. Stettinius as Secretary of State, President Truman today went cheerfully about the business of celebrating his first presidential birthday.

He planned to make the most of his reunion with the home-land before starting for Berlin early next month for the three meetings at which he hoped to help lay the groundwork for a final peace treaty "we hope will maintain the peace for a long generation to come."

The President made no effort to challenge reports that James P. Maguire, a former U.S. ambassador to the United Kingdom, had been named as his replacement. He declined to talk about other possibilities.

His silence, apparently, was to emphasize the importance of the assignment for which he picked Mr. Stettinius to replace him. Stettinius, who had been named as his replacement, was reported to have received a high degree from the University of Pennsylvania for his work in the State Department Security Council.

# May Be No Victory Loan Next Spring

Chicago, June 28 (CP)—The executive committee of the National Victory Loan Council today reported to have decided to recommend that the United States government should not issue a new Victory Loan until after the next campaign has been held.

The committee said that no Victory Loan should be held until after the next campaign has been held. The committee said that no Victory Loan should be held until after the next campaign has been held.

# Korean Deserter's Story Of Massacre Is Viewed By Allies With Reserve

By ROBERT H. WAGNER  
Kansas City, Mo., June 28 (AP)—American and British authorities yesterday viewed with reserve the story of a Korean deserter from the Japanese army who said he had seen the massacre of the American and British prisoners of war in Okinawa Island.

The Korean, who did not want his name disclosed for fear of reprisals to his family, said that he and the alleged massacre were seen in China and surrendered early this year.

United authorities, wondering why the Japanese would permit a Korean witness to such a massacre to be transferred to China where he might remain or be captured.

# Destroyer of Lidice Signs Statement

London, June 28 (Reuters)—Karl Hermann Frank, who was mainly responsible for the destruction of the Czech village of Lidice in 1942, has made and signed a 17-page statement which is being sent to Prague, the Allied Press Service in Germany said.

Frank, who succeeded Reinhard Heydrich as Czechoslovak minister of Bohemia and Moravia, was taken prisoner by the Americans and will be handed over shortly to the Czechoslovak government.

## Future Form of Government Of Germany Is Big Problem

By DEWITT MACKENZIE  
(N. Y. Foreign Affairs Analyst)

The question of Germany's future (form of government—one of the most important questions of the day)—the reorganization of the party, which Herr Hitler and Oswald Gnospe, Hitler's tried lieutenant, intend to sell to the Communists, having arrived as a bundled underground organization throughout the Nazi regime in Berlin. They state in a manifesto that they don't favor a Soviet system. The Communists, they have insisted on anti-Fascist regime within a democratic parliamentary republic.

and satisfied the yearning of his people to have someone do things for them, political thinking for them so they could get on with their lives. He sits beside in the beer halls after dark every day.

There will be an effort to restore the monarchy, the outstanding candidate for the throne would be Prince Wilhelm, the 31-year-old son of the Kaiser, the 71-year-old Hohenzollern, the 71-year-old grandson of the late Kaiser. Prince Wilhelm is next in line for the throne. He is a Catholic, married, has a Crown Prince Wilhelm, abdicated his rights. Whether the Allies would accept any restoration of the monarchy is, of course, open to question.

At first blithely this failure to get all-out for a Soviet may seem surprising. However, further consideration brings one to realize that the Communists are proceeding with discretion along a logical line which they indicate in their manifestos when they say that a Soviet system in the Reich "does not correspond to the interests of the German people at the present moment." In other words, they figure the country isn't ready for this sharp

[illegible]

In view of all this it isn't strange that there should be some discussion of the advisability of reviving the monarch which went out with the abdication of Kaiser Wilhelm at the end of the last world war. The Kaiser ruled by "divine right" and
